

Transport and Sustainability Forum

Tuesday, 2 March 2010

AGENDA

12.00-12.50 Working group meetings

- A. **Greening Group** – The greening group takes forward practical actions in existing green spaces and helps create new ones where possible. This meeting will focus on the following questions:

How can we deliver current projects and project ideas most effectively?

Are there any other individuals or organisations that could be involved?

Existing projects and project ideas include a wildlife garden at Bernard Morgan House, a planting project at John Cass Primary School and insect hotels in the City Gardens.

Group Coordinator: Sarah Hudson

- B. **St Paul's Churchyard Consultation** – St Paul's Cathedral is in the centre of an area undergoing major transformations and the City of London is consulting on two new proposals. This meeting will focus on the following questions:

Do you think that the consultation proposals will

- improve access to the area by foot, public transport and coach?
- establish a high quality green space that enhances the setting of St Paul's Cathedral that can be enjoyed by everyone?

Is there anything missing from the proposals that should be considered?

The consultation material is available in Carter Lane opposite the coach park.

The proposal boards are manned for two hours a day to answer questions between the hours of 11am and 3pm (timing depending on staff availability). If you would like to visit the area whilst there is a member of the team available to then please let Gillian know and she will liaise with the team to make sure that there is someone 'on duty' when you intend to go.

The above questions are to focus the Forum's response on the big issues. You are also welcome to reply to the consultation individually. The consultation materials are available via the following website:

http://www.cityoflondon.gov.uk/Corporation/LGNL_Services/Environment_and_planning/Planning/planning_consultation.htm

Group Coordinator: Gillian Cadd

- C. **Middlesex Street Sustainability Communications Project** – The Forum has secured funding from the Area Based Grant and will oversee the project. The project is an engagement programme, which will have two connected strands: 1) providing information directly linked to the refurbishment works on the estate, and 2) encouraging behaviour change relating to the wider sustainability agenda. This meeting will focus on the following questions: How can the aims of the programme be described in more detail? How can the Forum best support the delivery of the programme?

Group Coordinator: Birte Berlemann

12.50-13.00 Move to plenary

13.00-14.00 Forum Plenary meeting

1. Minutes of the last meeting
2. Feedback from the 3 working groups
3. Presentations:
 - Cycle parking (Jereme McCaskill)
 - 'All change' project (Jenette Coduto)
 - Street Scene and Sustainability (Victor Callister)
4. AOB

Next meeting: 25 May 2010
