

GUILDHALL WEST AMBULATORY

Works are taking place in the Guildhall during this summer to improve access into the Great Hall. We will be replacing the roof in this area with a glass structure so the floor can be raised to form a ramp into the Great Hall. The roof will be installed during the summer leaving the floor to be completed at Christmas / New Year.

From 21st July to 5th September the West Ambulatory area, and part of the South Ambulatory outside the Guildhall Library, will be hoarded off to prevent access into the contractors working area. From 5th to 20th September access to the West Ambulatory will continue to be restricted.

If you normally use the West Ambulatory to go between the West Wing and the North Wing, or to exit from the North Wing into the Guildhall Yard, you will need to use an alternative route. There are direction signs for alternative routes and revised fire exit routes.

The works are being managed by
Richard Litherland (ext. 3563)
Richard Joyner (ext. 1740)
City Surveyor's Department.

Please contact them if you have any concerns regarding the works. We apologise for any inconvenience you may experience.
